EXPERIENCE

Distin-Gui   August 2021 – Present
Software Engineer   Beirut, Lebanon

- Developed various web applications for **small independent** and **large corporate clients**
- Collaborated in planning the architectures of our projects' frontends
- **Boosted team productivity** by encouraging development principles like pair programming

GTonics   May 2022 – July 2022
Software Developer Intern   Saida, Lebanon

- Released an MVP **mobile Flutter app** with a PHP API + admin panel hosted on CPanel

PROJECTS

Instant Weather App   Live Demo — Source

- Developed a Vue.js web app that serves instant data from the *OpenWeather REST API*
- Displays live weather information of any city in over 100 countries around the world

Color Guessing Game   Live Demo — Source

- **Taught tens** of people how color mixing works using RGB by creating this web mini-game
- Designed to be **very fast**, *lightweight*, and *mobile-friendly*

Mock Car Rental Website   Live Demo — Source

- Designed a car rental website with a focus on being responsive and mobile-friendly
- Used jQuery to write more efficient JavaScript code and add page interactions easily

React Scaffold   Source

- Command line interface to quickly create component templates for React applications
- **Prevented and caught most of project's bugs** using Mocha unit tests and a GitHub Actions CI Pipeline

EDUCATION

Rafik Hariri University   July 2022
